Career Objective

To build a successful career in the fast-changing and competitive technology sector, where perfection in execution is the foundation for ever-more complex positions, I plan to utilize my skills to add value to a reputable and innovative firm with a focus on meaningful contributions to software creation, coding, and system upkeep..
I am excited about the opportunity to contribute my skills and knowledge to innovative projects and collaborate with like minded professionals in the field of technology.

Education

- **KL University** (2022 – 2026)

  Bachelor of Technology in Computer Science and Engineering, CGPA: 8.96

- **Pragthi junior College** (2020 – 2022)

  Board of Intermediate Education, CGPA: 9.0

Projects

Indian Clutural Management System

- Developed a system using Django (Python) to promote and manage Indian cultural elements such as traditions, festivals, art forms, and heritage sites.
- Designed a responsive, user-friendly interface to boost user engagement and facilitate easy exploration and participation in cultural events
- Implemented a secure and efficient MySQL database for streamlined data storage and retrieval..

Bus Booking Management System

- Developed a MERN stack application for booking bus tickets as part of a collaborative team project. Played a key role in designing and implementing the frontend interface, enhancing user experience and responsiveness.
- The application also includes features for administrators to manage bus schedules, seat availability, and ticket sales. Technologies: HTML, CSS, ReactJS, MongoDB.

Skills Summary

Programming Languages: C, Java, SQL,C++
Databases: MySQL, PostgreSQL
Technical Expertise: Data Structures, Algorithms, Software Design
