EDUCATION

K.L.University, *Vijayawada*   *Jun 2022-Jul 2026*
B.TECH. in Computer Science and Engineering   8.89CGPA

SKILLS

Python, SQL,C++, C ,Java , Machine Learning ,Ui/Ux , Flutter, Front-end

Frame Works:-

Django,React js

CERTIFICATION

- GOOGLE AI-ML

- PYTHON BASICS

- RED-HAT Ex-183

- SALES FORCE AI Associate

PROJECTS

INDIAN CULTURAL MANAGEMENT USING DJANGO(PYTHON)   MAR 2024

- Developed a comprehensive system using Python Django to manage and promote Indian traditions, festivals, art forms, and historical sites
- Implemented a secure MySQL database to efficiently store and retrieve cultural data, ensuring seamless access and management.
- Designed a user-friendly interface to enhance engagement, allowing users to explore and participate in cultural events effortlessly.
- http://indianculturalmanagementsystem.pythonanywhere.com/

BUS TICKET BOOKING APPLICATION USING MERNSTACK   Oct 2023

- Implemented core features like user authentication, bus search by budget and type, and intuitive pick-up/drop selection to enhance user experience
- Developed a Bus Ticket Booking Application using MERN stack (MongoDB, Express.js, React.js, Node.js) for seamless ticket reservations.
- Designed and integrated dynamic fare rules along with inclusions and exclusions to improve booking functionality and pricing transparency.

Automatic Door using Arduino program   Sept 2022

- The Automatic Door Locking System uses an IR sensor or RFID module to detect an authorized user and send input signals to the Arduino.
- Based on the received input, the Arduino controls a servo motor or solenoid lock, which locks or unlocks the door automatically
- Developed an IR sensor/RFID-based door locking system for automated access control.
